Summary

Hi! I'm Bardia, a current sophomore (16 y.o.) at Dublin High School, California. I have experience in computer science as a full-stack developer and as a Linux Systems Administrator. Recently, I've been doing most of my projects (which can be found on my GitHub: <https://github.com/TheLickIn13Keys>) in Java and Node.js, but I'm always ready and willing to learn new frameworks, APIs, and languages based on employer needs. I'm always looking for internships and other part-time opportunities, so please don't hesitate to contact me!

Experience

Lead Developer

Goop House

Apr 2021 - Present (1 year 1 month +)

- Built the software systems and websites that make Goop House tick.
- Host all Goop House services and pages on my local data center.
- Greatly assisted in the organization's growth to over 2,500 active members.

Student

theCoderSchool

Sep 2018 - Mar 2021 (2 years 7 months)

- Helped kickstart my software developer path

Volunteer Programming Instructor

Freelance Software Development

Mar 2021 - Dec 2021 (10 months)

- Taught younger kids and some teens new programming skills.
- Most notably, I helped motivate previously unmotivated kids by giving a lesson on how to apply programming skills to the real world via Discord Bots and Minecraft Plugins/Mods.
- Most instruction was given over Discord in various communities.

Software Engineer

Freelance Software Development

Jan 2020 - Present (2 years 4 months +)

- Work with clients to deliver the best possible final product.
- Most of my work revolved around Spigot (Minecraft) plugins and the MCP (Minecraft Coder Pack).
- Efficiently worked with others on successful projects.

Delegate

Model United Nations

Sep 2020 - Present (1 year 8 months +)

- Have attended 5 conferences so far
- Successfully passed 15+ resolutions and directives
- Very active in the school's local organization

System Administrator

Linux

Apr 2021 - Present (1 year 1 month +)

- Manage, develop, and expand a local enterprise-grade data center.
- Host (oftentimes for profit) other developers' applications on high availability clusters.
- Provide public services to other users.

Education

University of California, Berkeley

Berkley Pre-College Scholar Program, Computer Science

2022 - 2022

- Will participate in the Berkley Pre-College program for computer science during the summer of 2022

Dublin High School

High School Diploma

2020 - 2024

- AP Classes (Sophomore year): AP Computer Science, AP European History
- Clubs: Model UN, YDSA, Quizbowl, Debate, Robotics, Youth Coding Workshops

Las Positas College

Information Technology

Jun 2021 - Aug 2021

- Took a class on Information Technology with a focus on the CompTIA A+ Certification

Chabot College

Cyber/Computer Forensics and Counterterrorism

Jun 2019 - Jul 2019

- Took a class on cybersecurity, penetration testing, and cyber forensics.

Licenses & Certifications

 **CompTIA A+ - CompTIA**

Skills

Full-Stack Development • Java • C++ • Application Programming Interfaces • Bukkit/Spigot Development • Minecraft Development • Python (Programming Language) • Node.js • JavaScript • Working With Children

Honors & Awards

Distinguished Delegate @ TCCMUN - The Colony Cougars Model United Nations

Mar 2022

Second Place @ The Synopsys Outreach Foundation ACSEF - The Alameda

Science and Engineering Fair

Mar 2021
